WHILE 4,000,000 TONS OF TOP SOIL ARE WASHED OR BLOWN AWAY YEARLY AND HALF OF THE WORLD IS STARVING, MANY SAY THINGS ARE PICKING UP.

WASHINGTON, Oct. 4, '37—15,929,753 still on relief rolls, costing taxpayers \$148,946,639 monthly.

50,000,000 acres has produced its last food. Farmers on over 200,000,000 acres more unable to make a living and must be located at taxpayers expense on land that will produce crops

Cotton that was ours for a century now produced in 52 countries dropped to \$8.25 in New Orleans, and the world's carry over will be between 17,000,000 and 18,000,000 bales.

Stocks off again from \$5.00 to 19.00. Steel production down to 64%. 5,000 meat shops closed in New York on account of high prices. Ranges over-grazed or on account of no rain, there is no grass. Streams and water holes have dried up. In many sections, farmers will not get their seed back this year. Many have had no rain for five years.

Hammond, Ind.

OVER 250,000,000 TREE SEED SHIPPED \$1,000 WORTH OF LAWN TREES, ONLY 12 Cents TREE SEED FROM ALL PARTS OF THE WORLD

ANY VARIETY, BIG PACKAGE, 12 CENTS — 10 ASSORTED \$1.

LOOK OVER THE LIST AND YOU WILL FIND SOME VARIETY YOU WILL WANT.

HUNDREDS OF LETTERS LIKE THE FOLLOWING ON FILE.

THE 100 COLORADO BLUE SPRUCE TREES, SHOWN IN THE FLOWER POT were raised by a 10 year old boy.

It seems strange people will raise flowers from seed, when they could plant a 12-cent package of tree seed that would produce \$500 worth of beautiful trees.

Trees coming fine. Stamps enclosed for another package Colorado Blue Spruce.

Carl Blomquist, Cadillac, Michigan.

The 250 young trees growing lovely. Enclosed find check for 250 more.

Mrs. C. Aston, Brooklyn, N. Y.

I believe every Evergreen seed came up.

Mrs. J. B. Adams, Gifford, Illinois.

Have over 3,000 trees from the seed I bought of you three years ago.

David Belanger, R. 1, Crown Point, Indiana The 10,000 trees you furnished are doing well. Of the 200 I planted only six died.

John J. Tessari, COMMUNITY

WILD LIFE CLUB, St. Cloud, Minnesota.

The germination from the Arbor Vitae Tree Seed purchased was almost perfect. Kindly quote on Colorado Blue and Koster Blue Spruce and Japanese Red Pine Seed in 1/4 and 1 lb. lots.

B. G. Hemphill, Pres.,

Barberton School of Comm., Barberton, O. Have 8000 evergreen trees from the seed you sent. Give prices on 50,000 Norway and the 8 other varieties checked.

Robt. H. Lawton, Worcester, Mass.

Have over 5000 trees, the majority over 2 feet high, raised from your seed.

H. J. Harder, Munster, Indiana.

Our trees, the real rain-makers the world over, are practically gone and instead of our business men taking an interest in this work, as they did in England and Europe in the 15th century, they all wait for something to turn up as they did in Asia and Northern Africa.

Read Zon's wonderful book, "FORESTS & WATER IN THE LIGHT OF SCIENTIFIC INVESTIGATION", published by the Government. Price, 20 cents. It tells where rain comes from according to the greatest scientists in the world. Nothing will save this country but trees.

WILL YOU AND YOUR FRIENDS ORDER ENOUGH WATER-TESTED BLACK WALNUTS TO GIVE EACH PUPIL ONE or TWO.

The Trees will sell for \$25. to over \$100 each. One Bushel (about 1250 nuts), — \$1.50 OR 5 BUSHEL, — \$7.00

Louis J. Kren, Editor, NEWS, North Judson, Indiana, notified pupils trees could be ordered through the NEWS office. 2700 two and three year old trees were ordered the second day. Total number ordered was 5109.

Have several hundred 5 inch trees from your I. W. L. Seed Package.

Mrs. Mary H. Huebach, Pamona, Calif. E. N. Brindley, Supt. Schools, Sunman, Indiana, raised enough trees to plant almost 10 acres and has 4000 left raised from seed purchased 2 years ago.

Dr. E. F. Pfefer, New London, Wisconsin, presented pupils in his county with 300,000 Pine, Spruce and Arbor Vitae Tree Seed.

TREE SEED — BIG PACKAGE 12 CENTS 10 ASSORTED \$1 — BIG SCOUT BAG

25c, 50c and \$1.00.

EVERGREEN SEED

ARBOR VITAE—American, Chinese, Golden, Korean or Pyramidal

VEGETABLE SEED	
Chinese and Jap., gardeners lead the world. Our Radishes are small and spongy; Japanese Radishes weigh up to 26 lbs, are tender and solid. When packed in sand where they will not freeze, they remain that way all winter. Our Onions are small; Japanese Onions often weigh one pound and over. Our Cucumbers are mostly seed; Japanese Cucumbers grow from 24 to 36 inches, long, are tender, have few seed. Give a variety of these seed, unknown here, to some farmer friend and he will gladly give you half of the vegetables he produces.	
ASPARGUS	
BEET, Wonder or Egyptian	
CABBAGE—Chee-Ho, Chi-Hi-Li, or Shung-tang Giant

DOROTHY PERKINS ROSES
10 BIG 3-yr. old \$1.00
Plant 1,000 cuttings along your fence. They are all climbers and will sell in three years for 25 to 35 cents each. Cost only \$8.00 per 1,000. DON'T MISS THIS.
\$1.50 BUYS 150 GIANT BLACKBERRY OR LATHAM RED RASPBERRY BUSHES, WHICH PRODUCE FOR WEEKS. Buy 150 for some friend who has a farm for one-half of the berries.

A BLESSING TO FARMERS

and business men who own worthless, eroded, drought-stricken farmland, or have friends who own such land.

The new **RUSSIAN GIANT SUNFLOWER** referred to in this country for the first time May 8, '37, grows 15 feet high, and has 18-in. heads.

The Russian Embassy report that in 1936, 1,047,000,000 pounds of oil were extracted and used for food and in industry, and this year they planted 7,090,000 acres, which should produce 3,000,000,000 pounds of oil.

Of the two large seed shipments I distributed last spring many have written letters of amazement at the rapidity of growth and enormous size.

Average yield for Missouri, 400 lbs; Illinois, 650; and California, 700 lbs. per acre, and from 20 to 30 tons of feed.

SEND A ONE DOLLAR BILL TODAY FOR ENOUGH SEED FOR 1938 PLANTING TO PRODUCE SEED FOR PLANTING A BIG FARM IN 1939. OR 25 CENTS BUYS ENOUGH FOR A DOZEN LAWNS.

Don't make the mistake thousands did when upon returning from the Far East in 1917, I told our Chamber of Commerce about the millions of pounds of soy beans raised in Asia that our farmers could grow if they would wake up.

SEND A ONE DOLLAR BILL FOR SEED AT ONCE. In addition to being unexcelled as a stock and fowl feed, a large concern in St. Paul now puts them up in small bags for the hundreds who enjoy eating them like peanuts.

BALLED AND BAILED—FREE WHILE THIS SPECIAL LOT LASTS, WE OFFER TWO FOR THE PRICE OF ONE.

ZELENKA CONCORD GRAPES

Many vines produce 100 pounds. 25 Vines and 150 Giant Mountain Blackberry Bushes which produce berries for weeks, only \$3.00 Turn them over to some farmer for half of what they produce, and you will get your money back many times yearly as long as you live. IF YOU KNOW SOME ONE ON A FARM, DON'T MISS THIS OFFER.

OLIVE TREE SEED

IN THE NORTH, THEY SHOULD BE PUT IN THE BASEMENT DURING ZERO WEATHER. 12 CENTS PER PACKAGE, POSTAGE PAID.

AS SOON AS YOUR TREES ARRIVE,

set the roots in a tub of water for four hours. Dig the hole, put in water, then dirt, so the roots set in mud and the next day press the ground around the tree solid with your foot. In hot weather, mulch with leaves or straw. **DON'T ALLOW THE GROUND TO DRY OUT.**

WHY TREES DIE

The roots of the 3-year old **EVERGREEN** Tree shown are 30 inches long. Imagine what it costs to dig, pack and ship 1,000 trees and what it costs to dig trees 4 or 5 feet high with roots 8 and 10 feet long, which have not been **TRANSPLANTED SEVERAL TIMES**

The smaller the tree with all its roots, the surer it will grow. A 2-year old **EVERGREEN** or one year old **DECIDUOUS** Tree, if instructions are followed, will live where others die and they will be larger 5 years after planting than a 5 year old, which has not been transplanted.

Holtz says: "Few people know how to plant and take care of big trees which have not been transplanted, while if you buy small trees with a complete root system, they will grow from the start."

Select STRAWBERRY Plants

from the greatest strawberry growing section, State inspected. Guaranteed true to name. Free from disease. The finest and sweetest berries in this Country. 500 AT THE 1,000 PRICE.

If Cholera Broke Out

in 81 of 102 counties in Illinois, would newspapers wait until from 11% to 75% of the people died before they advised everyone what to do?

The Government map above shows 81 of 102 counties ruined from 11% to 75% by erosion, which will require generations to bring back. The more land ruined, the more people to be taken care of by taxpayers.

CHRISTMAS TREES TO U.S.A.

Montreal, Quebec, reports more than 4,000,000 Christmas trees shipped from eastern Canada to 15 states. Of the 700 carloads, many will go as far west as Iowa and South to Louisiana--CHICAGO TRIBUNE, Dec. 5 '37

Think of how high school graduates who, by investing from \$10 to \$15 yearly for 3-year-old WHITE, BALSAM or DOUGLAS FIR, COLORADO BLUE, NORWAY, BLACK HILL, ENGELMAN, or WHITE SPRUCE and allowing them to grow 3 or 4 years, could pay their way through college, and think of the farmers who could make \$500 an acre, as reported in Government bulletins, from land now bringing in no income.

The funny part of this proposition is, the very men who "poo hoo" the idea will pay as much as \$3.00 for a tree each Christmas that they could buy for less than two cents each.

Write the Dept., of Agriculture, Wash., for bulletin telling about the money made raising Christmas trees.

ARBOR VITAE HEDGE

Planted in two rows, zig zag, 18 inches apart makes one of the finest hedges grown. Can be trimmed any shape. Trees, 18-24 inches high, cost only—17.50 per 100 running feet.

Regular price is \$33.00

MAIDENHAIR TREES

OLDEST AND ONE OF THE MOST BEAUTIFUL TREES GROWN IN ASIA. BAG SEED 50 CENTS.

"TOBACCO ROAD"

The "hottest" proposition in theatrical history of this generation. Closed by the police in many cities. The most sensational, yet authentic book, ever published depicting conditions surrounding thousands of farmers with incomes of from 0 to a few dollars yearly, many of whom live two and even three families in a room.

The greatest triumph ever opened on Broadway. Thousands

turned away. Yet sensational as it is, those who know nothing of what becomes of the millions of boys and girls who flock to our cities from worthless soil-eroded farms without trades or experience or what they do for a livelihood should read it.

Don't think this applies to the south only. Boys and girls everywhere are out hustling for themselves and must make a living some way.

260 pages of facts which 99 out of 100, who know nothing about the ways of the world, will say are exaggerated.

Why pay \$3.60 to see the play, or \$2.50 for the book. We send it in sealed package, postage paid, for \$1.10.

CREAM OF TREES

5 and even 10 for what thousands pay for one tree. As soon as you receive them put the roots in a pail of luke warm water for four hours and plant in mud. Mulch with leaves and cuttings from your lawn and not a tree should die.
